About Us

The Southeastern New England Defense Industry Alliance (SENEEDIA) was formed to identify, champion and coordinate issues that contribute to our National security and provide benefit to our members, local communities, the Departments of Defense and Homeland Security, and other Federal Government agencies.

SENEEDIA's vision is to be a catalyst for thought leadership and technical innovation in undersea technology, cybersecurity and other critical defense technologies. Our mission is to enable the development of the innovative technology, foster thought leadership, and facilitate required economic and workforce development.

SENEEDIA is a 501(c)(6) corporate and individual

Upcoming Events

Friday, 19 May 2017

Rise STEAM at Quonset Air National Guard Base North Kingstown, RI

SENEEDIA, in partnership with the RI National Guard, the RI Department of Education, the RI STEAM Center, the RI State Police, Naval Station Newport, NATICK Labs, the University of RI and Commerce RI, is sponsoring an exciting day of learning, networking, and entertainment based around science, technology, engineering, art, and mathematics education for 250 high school students from area school districts. As part of this event, there will be a SENEEDIA Industry and Career Showcase that includes a table provided to member companies to display information for students. For more information, contact Linda Larsen at LLarsen@senedia.org.

Thursday, 25 May 2017

Only 3 Booths Left! Includes 1 booth and 1 registration for the event. \$3000 for SENEDIA Members; \$4000 for Non-SENEDIA Members which includes a one-year SENEDIA Corporate Membership.

Event Recap

On May 2nd, Dr. Vic Ricci, Chief Technology Officer at Naval Undersea Warfare Center Newport delivered an energized Tech Talk on research and development in the Navy and at NUWC, reinforcing the underlying theme that the emphasis in his organization is "working together to deliver the best solutions quickly."

At SENEDIA's May 11th workshop on Improving Customer Conversations, Matt Leary led an engaged audience on specific tactics technical staff and engineers can use to improve interactions with key customers and partners. The workshop included planning tools and templates as well as an exercise for an impromptu business opportunity meeting.
