About Us

The Southeastern New England Defense Industry Alliance (SENEA) was formed to identify, champion and coordinate issues that contribute to our National security and provide benefit to our members, local communities, the Departments of Defense and Homeland Security, and other Federal Government agencies.

SENEA's vision is to be a catalyst for thought leadership and technical innovation in undersea technology, cybersecurity and other critical defense technologies. Our mission is to enable the development of the innovative technology, foster thought leadership and facilitate required workforce development.
