About Us

In 2002, the Southeastern New England Defense Industry Alliance (SENEDIA) was formed to identify, coordinate, and champion issues that contribute to our national security and provide benefit to our members, local communities, the Departments of Defense and Homeland Security, and other Federal agencies.

SENEDIA's vision is to be a catalyst for thought leadership and technical innovation in undersea technology, cybersecurity and other critical defense technologies. Our mission is to enable development of innovative technology, foster thought leadership, and facilitate required economic and workforce development.

SENEDIA is a 501(c)(6) corporate and individual membership organization.

SENEDIA has Moved!

SENEDIA's office is now at:

Two Corporate Place

Suite 203

Middletown, RI 02842

Member Profile: Nautilus Defense LLC

What is your company's history?

Nautilus Defense was founded in support of the Naval Information Warfare Center (NIWC)-funded Indonesia Integrated Maritime Surveillance System, one of the longest continuous maritime domain awareness systems in the world. Nautilus has since developed and manufactured a broad range of integrated systems for its DoD and commercial customers.

What services and/or products does your company provide?

Nautilus specializes in advanced material-integrated systems incorporating electrical, electronic, and electromagnetic capabilities into textiles and composites to realize impactful operational efficiencies. We design, build, and leverage custom digital modeling and fabrication tools to rapidly develop and prototype these and other systems.

Why do you consider membership in SENEDIA valuable?

SENEDIA membership has allowed Nautilus to efficiently connect with both customers and other member companies to deliver innovative systems capabilities to the warfighter.

If another company wants to do business with yours, whom should they contact?

Nautilus' Principal Jim Owens can be reached at jim@nautilusdefense.com.

Our alliance maintains detailed knowledge of the industrial base that supports our local Federal, Defense and Homeland Security installations, and provides up-to-date information on Defense and Homeland Security industry issues and initiatives to our members, citizens, state and local governments, and Congressional delegations.

New SENEDIA Members

Aretec, Inc. holds a niche market position through the development of data science platforms that streamline workflows from ingestion to deployment. Using open source tools, open standards, and market specialists, Aretec has demonstrated the ability to leverage and integrate a vast number of data sources to extract the most valuable insights. This combination of domain knowledge and data science expertise has enabled Aretec to develop production solutions that have created seas of change by increasing the value of data for our existing customers. Our practices include an ISO 9001:2015, ISO 20000, ISO 27001 and (CMMI) Level 3 for both Services and Development. Founded in 2005, Aretec is an 8(a) certified Small Disadvantaged Business (SDB).

Greensea Systems, Inc. is a global leader in advanced marine robotic systems for high-level tasking, interoperability, and intervention. Greensea's OPENSEA operating platform provides a fully-distributed, open software framework for highly integrated systems across all brands of sensors, devices, and equipment while cutting-edge technologies for navigation and autonomy elevate system intelligence. One cohesive operator interface, Workspace, fuses system data into a comprehensive command and control center for streamlined workflow and improved productivity.

Ann Marie van den Hurk is founder of **Mind The Gap Cyber**, a cyber risk management firm that assists executives in businesses to protect their companies with innovative, proven cyber risk strategies including cyber risk assessment, cyber response plan development, and cyber hygiene training.
